

“Mechanisms of Cellular Dysmaturation in Preterm Brain Injury”

Dr Justin Dean

University of Auckland, New Zealand

PhD

Justin Dean is a Senior Lecturer in the Department of Physiology, the University of Auckland.

He received his Ph.D. in Physiology in 2006 from the University of Auckland, New Zealand.

The long-term objectives of the studies in his laboratory are to understand the cellular and molecular mechanisms involved in brain injury arising from complications of prematurity, and to develop interventions to restore normal brain development in these infants.

Date:

**Thursday,
19th October 2017
12:00pm-1:00pm**

A light lunch and refreshments to follow

Location:

**TRF Building,
Level 2,
Seminar rooms 1+2**
27-31 Wright Street,
Clayton, 3168
