

### Neurobiology of ADHD: progress, promise and pitfalls along the way

#### Prof Mark Bellgrove

Director of Research, Turner Institute for Brain and Mental Health  
National Health and Medical Research Council (NHMRC) Senior  
Research Fellow  
President, Australian ADHD Professionals Association (AADPA) Ltd

Professor Mark Bellgrove is an NHMRC Senior Research Fellow, Professor in Cognitive Neuroscience and Director of Research in the Turner Institute of Brain and Mental Health, School of Psychological Sciences, Monash University. His laboratory takes a systems neuroscience approach to understand the neurobiology of attention and disorders of attention, including attention deficit hyperactivity disorder (ADHD). He runs a multidisciplinary lab at Monash comprised of talented scientists with skills in cognitive neuroscience, molecular and statistical genetics, molecular biology and pharmacology.
