Hudson Institute Fellowship Program

**Millennium Science invites you to join our
Hudson Institute Fellowship Program**

- A unique opportunity to develop deep expertise in the application of 10x Genomics technologies:
 - Chromium (Single Cell)
 - and/or Visium (Spatial Biology)
- By providing training & support to instill proficiency in 10x Genomics workflows
- Perfect for early and mid-career researchers
- Submit your expression of interest by submitting a short project abstract (250 words)

More Information

Submit an abstract

**Book a personalised discussion
about your project with a 10xpert**

Geoff McDermott, PhD
Science & Technology Advisor
10x Genomics

Book a Discussion

Upcoming Training Sessions - Dates TBD

November

Institutional Fellowship Launch
10x Chromium Controller
Training Sessions

January

Visium Spatial Deep Dive
10x Chromium Controller
Training Sessions

March

Fellowship Social Forum
“Planning for the future”

December

scRNAseq Sample Prep
10x Chromium Controller
Training Sessions

February

scRNAseq Data Analysis
10x Chromium Controller
Training Sessions
